SECTION SF 30 BLOCK 14 CONTINUATION PAGE

Technical plans and specifications are amended. Make appropriate changes.

November 6, 2001

Langley Airforce Base FY-02 and FY-03 1+1 Dormitory

Amendment 3

Request For Proposal

Statement of Work, Chapter 1, Paragraph 1-1.1- Replace the previous paragraph with the attached paragraph.

Drawings

Attached drawings files have been modified to change phasing of the work.

A-1 OVERALL SITE
A-2 ARCHITECTURAL SITE PLAN
A-5 SITE PLAN (MECH YARD)
C-2 UTILITY PLAN
ES-1 ELECTRICAL WORK
ES-2 ELECTRICAL WORK

End

Replace the previous Statement of Work, Chapter 1, Paragraph 1-1.1 with the following-

CHAPTER 1

DESIGN OBJECTIVES

1-1.1 SCOPE OF WORK. Design and construction shall comply with the specifications and requirements contained in this Request for Proposals (RFP). The design and technical criteria contained and cited in this RFP establish minimum standards for design and construction quality. The objective of this solicitation is to obtain a campus complex of buildings complete and adequate for assignment as Air Force Dormitories. This contract shall consist of the design and construction of dormitories, including common support spaces, for 96 persons (with an optional facility for an additional 96 persons), site work, and associated facilities on Government-owned land at Langley Air Force Base, Virginia.

Record documents for the FY-01 1+1 Dormitory is included in this RFP. These documents shall be the standard for developing the design of the FY-02 and FY-03 1+1 Dormitory. The requirements of the FY-01 1+1 Dormitory specifications apply to this project also. Sleeping modules, finishes, equipment, architecture, and engineering shall match except as modified by other portions of this RFP. Concept drawings for the FY-02 and FY-03 1+1 Dormitory buildings are included in this RFP and shall be used to determine the shape and location of the new facility. Civil and electrical drawings and geo-technical reports include information on existing conditions that must be considered by the Contractor in designing the new facilities. The Sewer Pump Station design shall be built under this contract as identified in the attached construction documents. The Langley Air Force Base Dormitory Campus Development Plan is included showing information on future projects and shall be considered in developing the current project. The adjacent parking lots, pavement, curb and gutter will be built under separate contract. Any damage caused to existing facilities while performing this work must be corrected by the Contractor. Coordination with ongoing projects in the vicinity is required. Site access coordination with the current construction of the FY-00 and FY-01 Dormitory shall be required for the first 6 months of this contract while that project is being finished. All necessary temporary design and construction procedures shall be included in each portion of the work. Dormitory site work shall be identified as a separate contract line item but included in the base proposal.

Phasing and Options. The project will include phases and options.

Phase 1 shall include the FY-02 1+1 Dormitory, associated pedestrian areas, site improvements, and any temporary procedures required for completion of the work. The dormitory, site improvements (except new trees) and associated pedestrian areas shall include design and construction based on the concept design provided and the reference documents from the FY-01 1+1 Dormitory.

Phase 2 shall be an option for design and construction of the FY-03 1+1 Dormitory, associated pedestrian areas, sewer pump station, site improvements (including trees for both phases) and any temporary procedures required for completion of the work. The sewer pump station shall be constructed from design documents included in the RFP. Authorization to execute the option is contingent on available funds and satisfactory performance by the Contractor in Phase 1.
